REMARKS

The figures of births and deaths of India shown in this statement for week ending the 10th Nov. 1956, relate to 192 towns with an estimated population of 29,732 thousands. The total number of towns is 318 and their population is 41,584 thousands. Thus 60% of the total number of towns representing 71% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 21,800 and 7,959 representing birth and death rates of 38.1 and 13.9 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population. Information about Andhra Pradesh, Bihar and Madhya Pradesh could not be included in this statement. The following table gives the position by States.
